Another division of reinforcements for Rojestvensky is almost ready at Cronstadt, and will be sent out under the command of Rear Admiral Parenago. He said it would give the democratic party just the weapon it most badly needed in its fight against the protective tariff

"What do you think of the proposition to buy general supplies abroad?" Gen. Grosvenor was asked.

"I do not desire to be placed in the at-titude of a critic," he replied. I am a pro-tectionist. We have built up the policy of protective tariff in this country on the basis of higher prices. Those prices were higher because we paid our labor better wages. People have become more cognizant every year of the benefits of that policy and understand the reason for higher prices. ## The Revisionist View.

The revisionist view of the case will be that the high tariff people and the protected industries have brought the issue upon themselves by overplaying their hand. The view was expressed in some quarters today that the proposed plan of purchase of goods abroad was an endeavor of the canal commission to back down the American manufacturers in their prices, and that barring the possible purchase of a ship or two as an emergency measure, the commission would never put into effect the for-

## ARRIVALS FROM PANAMA.

Gen. Davis, Retiring Governor, Reached New York-Notes.

NEW YORK, May 16.-Gen. G. W. Davis, the retiring governor of the Panama canal zone, and his two daughters arrived here today on the steamer Allianca from Colon. Gen. Davis had been suffering with malarial fever, but he declined to leave the canal zone pending the arrival of his successor, Gov. Magoon, until formally ordered to do so by Secretary Taft. He had re-sisted the advice of physicians to leave some time ago, fearing that his sudden de-parture at the time when health conditions were adverse would be misunderstood. Gen. Davis said today that he had received great benefit from the sea voyage. The malaria had practically disappeared and he believed that after a short rest he will be fully re-covered from his indisposition.

The Allianca also brought about twentyfive employes of the canal commission. Some of them had been on the isthmus eight months and were returning home in the regular order, while others left the canal zone because of the health conditions

TRANSFER OF CLERKS MEETING HELD TODAY

FILLED UNTIL AFTER JULY 1.

Ten Officials Dismissed Have Not Been | This Includes Drivers of Carriages and Reinstated, as Rumor Predicted

They Would Be.

The commissioner of pensions today filled the places made vacant on the board of review of the pension bureau by the dismissal of ten members under charges of incompetency, and thus took the final official action necessary to close the incident. Now that the places of the men dismissed have been filled it is probable that the rumors that have been current for several weeks past to the effect that the men dismissed would be reinstated will die a natural death. The action of the commissioner was taken this morning because of the evident need of the services of the new members of the board of review. The vacancies were all filled by transfer from other divisions of the office of old and experienced clerks. The appointments to fill the vacancies caused by the transfers will not be made until after the 1st of July. The new members of the board of review are Charles R. Cleaves of Maine, Allen D. Albert of Pennsylvania, Morris E. Sabin of Wisconsin, Charles Reed of Maryland, Israel Stockton of Illinois, J. Finney Engle of Pennsylvania, Dr. W. L. Chamberlin of Indiana, Walter B. Pettus of Kentucky, T. Fletcher Dennis of Kansas, A. D. Wilkinson of Pennsylvania, William Mehn of son of Pennsylvania, William Mehn of Leuisiana, N. A. Straight of Pennsylvania and Charles Hanback of Pennsylvania.

## Thirteen Clerks Transferred.

It will be observed that there are thirteen men in the list of those transferred to the board of review, while only ten vacancies existed by reason of the dismissal of the ten clerks adjudged guilty of misconduct. The three extra members of the beard were so detailed because of the extra work on the board and to fill vacancies caused by death or resignation. It would have been necessary to appoint three new members of the board even if the ten members of the second even in the second even members of the board even if the ten members under charges had not been dismissed. At the time the dismissal was announced Commissioner Warner stated that he did not believe he would fill the vacancies until after the 1st of July. He gave as his reason for this course of action that under the act of Congress making appropriations for the rension bureau for the fiscal year endthe vacancies could be utilized by promotion of clerks who were thus legislated out

This policy has been pursued throughout the bureau, and few vacancies have been filled except those that were absolutely necessary for the conduct of the business of the office. The commissioner does not desire to be placed in the position of hav-ing to dismiss any one on the 1st of July, when the new appropriation bill becomes effective. In the present instance, however, the work of the bureau was getting behind, and it was found that the present force of the board of review could not carry on current business in the manner required. All vacancies existing thereon were consequently filled.

### The Incident Closed. As stated, the action of the commissioner

today effectually closes the incident of the suspension and dismissal of the ten members of the board of review who were charged with incompetence. It will be re-membered that about six weeks ago Commissioner Warner addressed notes of in-quiry to ten members of the board, the highest authority in the pension bureau on pension claims, except the commissioner, calling on them to explain why they had allowed pension applications in certain specified cases of non-pensionable applicants. It developed that six pensions were granted to members of a certain regiment of Pennsylvania militiamen, who were never in the United States service, and who were, therefore, not pensionable by the United States. It was found also that two claims from members of the New Jersey regiment of the same status had been allowed. The members of the board were very much surprised at the action of the commissioner, but pleaded guilty of making the mistake. The commissioner took the matter under advisement, and about ten days after receiving the last reply to the charges, all of the ten members of the board affected resigned. It is asserted by some of the members that they were told that if they resigned they would be reinstated shortly Commissioner Warner denied that any sucl hope had been held out to the members of

the board. The resignations were for-warded to Secretary Hitchcock, who promptly approved their acceptance by the commissioner, and the members of the board were therefore instantly separated from the service. Ever since then there have been rumors that the dismissed clerks would be reinstated, and that their posi-tions were not to be filled for that reason. The action of the commissioner in filling the positions today effectually disposes of these rumors, and signifies that the last official action in the premises has been

## Two Rescued by the Police.

George Tallman and Henry Coles, two colored men attacked by a mob of strike sympathizers at 14th and State streets today, were rescued by the police. The negroes had been recognized as having driven teams for the Employers' Teaming Company, and were severely beaten. The police used clubs vigorously in dispersing

the crowd. More than 100 messenger boys employed by the Postal Telegraph Company paraded the streets today. The boy strikers occupied themselves chiefly in shouting at nonundon teamsters.

Bricklayers' Hall, chief labor headquarters in Chicago and meeting place for the promotions necessary to fill up the board of review until he could see how many of the police. Eleven union men were arrested who had taken refuge in the building after a non-union driver had been

'slugged.' Fear that he would meet the same fate as F. J. Carlstrom, the woodworker, who was killed, it is alleged, by "sluggers," led John Mitterman to kill himself. Mitterman cut his throat with a razor while standing in the street opposite his dwelling. He died two hours later at a hospital, raving against the unions. Mitterman up to and after the time of the strike was in the employ of Frad I. ploy of Fred L. Meckel, in whose shops Carlstrom worked. He was one of the men on the list of those to be "slugged," of whom Carlstrom was the first.

The fact that he was to meet the fate of Carlstrom so preyed upon Mitterman's mind that he sent a letter to Mr. Meckel a week ago saying that he had been followed by 'sluggers" and was in fear of his life. An

investigation is being made. School Youths to Be Dealt With Sternly Strikes of school children, who have quit desks by hundreds in sympathy with the teamsters' strike, are to be dealt with sternly, according to President Clayton Mark

of the Chicago board of education. The children's strikes have followed the use of non-union teamsters by boycotted firms in delivering coal at the public schools. It is alleged that in many cases the parents rather than the children are responsible for the strike. New consignments of strike-breakers are arriving in Chicago. Three hundred white and colored men came from St. Louis today. They were recruited in Louisville, Evansville and other river towns. The men were marched to the barns of the Chicago Teaming Company, Jackson boulevard and Franklin street. Another large gang came from Cincinnati, consisting of white men entirely. Nearly a score of the whites deserted after they reached the city, declar-ing they were not told that there was a

strike on here.

T. C. Baker, one of the deserters, complained that the two passenger cars in which they were brought to Chicago were locked during the entire trip. The strike of school children assumed large proportions today, when 500 pupils of the Graham School, 41st and Union streets, refused to enter the building. According to school of-ficials, no "unfair" coal has been delivered at the Graham School. The authorities de-clare that there was no apparent reason for the strike.
